**Turns All Powers Over to Fiume Communal Council.**

**Battle For Fiume is At End With Poet Losing All**

**Had Held Adriatic City Since September, 1919**

**Was Worshipped As National Hero of Italy**

(By Associated Press)

Fiume, December 29.—Gabriel d'Annunzio early today surrendered all his powers to the Fiume Communal Council.

Seizure of the port of Fiume in September 1919 by Gabriele d'Annunzio, Italian poet warrior, at the head of 8,000 volunteer grenadiers and arditi, was the dramatic climax to a controversy reaching back to the Treaty of London, concluded in the spring of 1915 between Italy and the Allied powers, under which Italy entered the war against the Central Powers.

The treaty assigned the port of Fiume south of the Brenner Pass, as well as Trieste, Gorizia, Istria and a section of the Dalmatian littoral to Italy, but gave Fiume, the seaport of Hungary, to Croatia.

When the war ended, Italian nationalists, including d'Annunzio, demanded that Fiume, with its preponderant Italian population, should be given to Italy, an act that would have required the revision of the Treaty of London.

The Italians, however, invoked the principle of "self-determination" enunciated by President Wilson and pointed to the fact that the population of Fiume, upon the dissolution of the Austro-Hungarian Empire, had proclaimed through their National Council, the union of Fiume with Italy.

## OPPOSE CLAIMS

Croatia, now a part of Jugoslavia, opposed the claim on the ground that Sussak, an important suburb of Fiume and part of the city itself, was overwhelmingly Jugoslav. In addition the Croats charged that, whereas Italy already had an excess of valuable ports, their country and the adjoining lands needed Fiume as their only outlet to the sea. This position won the support of President Wilson who was subsequently denounced by d'Annunzio and his sympathizers as "the only obstacle to the realization of Italy's aspirations." President Wilson's view, however, was shared by the British and French.

Failure to reach a satisfactory solution of the Fiume embroglio, however, was one of the principal causes of the downfall of the Orlando ministry on June 19, 1919, and it was succeeded by the moderate Nitti cabinet, whose selection exasperated the Italian Nationalists and was the forerunner of the d'Annunzio coup d'etat the following September.

## TROOPS DESERT

Fiume, at the time of the entry of the d'Annunzio forces, was under the military control of General Pittaluga of the Italian army. The General had led a strong detachment to the outskirts of the city to intercept the invaders who had armored automobiles and were armed with machine guns. D'Annunzio met him with the salutation:

"I understand you would fire upon your brethren? (Bearing his breast) Fire upon me!" At this, it was reported, Pittaluga embraced d'Annunzio and the soldiers on both sides set up the cry: "Viva Fiume! Viva d'Annunzio!" The d'Annunzio troops then entered the city.

## "ANNEXES" FIUME

The 15 months that have elapsed since the poet-warrior set himself up as "a dictator" have been filled with tragic as well as opera bouffe events. Clashes between the Italians and Jugoslavs.

## PLAN NEW LAW TO REGULATE SCHOOL YOUTH

**All Six to Eighteen May Be Forced to Attend 32 Weeks**

**Permission to Work Would Be Recognized.**

(By Associated Press) Columbus, O., December 29.—Attendance at school for thirty-two weeks each year would be made compulsory on all Ohio youths between six and eighteen years of age, with certain exemptions, if the Legislature acts with favor on proposed amendments to the school code, which have been submitted to the Ohio State Teachers' Association by T. Howard Winters, inspector of teacher training in the State Department of Public Instruction.

Exemption from this requirement is granted in four instances: If the bodily or mental condition of the child prohibits attendance. If the child is taught at home by a qualified person. If local conditions necessitate fixing the beginning age at seven instead of six years. If the pupil is between sixteen and eighteen and has permission to work.

The proposed amendment would require school attendance regardless of temporary residence in the state.

## POSSE KILLS YOUNG BANDIT

**Pair Held Up Fast Train Near Kankakee**

**Second Robbery Prevented By Officers.**

(By Associated Press)

Kankakee, Ill., December 29.—One of two youthful bandits who held up the New Orleans-Chicago flier on the Illinois Central Railroad near here last night was killed in a battle with police and railroad detectives at Aroma Park, four miles east of here, early today, and the other surrendered.

The youths, Jose and Jacob Scott, twins, aged 24, were said to be sons of an automobile mechanic at Greenville, Illinois, a few miles south of Kankakee.

A holdup also of the Cincinnati-bound train on the Big Four by the two robbers was prevented when the station agent at Aroma Park telegraphed a warning that two men resembling the robbers were in his station waiting room.

Police and railroad detectives arrived as the Big Four train pulled in and chased Jacob Scott through the train into a washroom, firing through the walls until the robber was fatally wounded.

Only the rear Pullman on the Illinois Central train was robbed. Several hundred dollars in cash and a few thousand dollars' worth of jewelry were recovered.

## SUNDRY CIVIL BILL TO CARRY MINIMUM FUND

**Great Slashes Made in Reporting Bill**

**\$420,914,000 Less Than The Amounts Asked**

**Shipping Board Hard Hit In Slicing**

(By Associated Press)

Washington, December 29.—The Sundry Civil bill carrying a total of \$383,611,292, or \$420,914,192 less than was asked by the government departments, was reported today by the House Appropriations Committee.

It was the first of the big supply measures for the next fiscal year to be completed and its total was \$52,237,714 less than the amount appropriated for similar purposes this year.

Indicating a desire to put government expenditures on a pre-war basis the committee first taking care of men disabled by the war set aside only \$160,000,000 for actual sundry civil expenses of the government which was within \$34,000,000 of the total amount appropriated for 1916.

The largest single reduction, \$147,000,000, applies to the Shipping Board Emergency Fleet Corporation, the bill providing the organization shall be supported entirely out of various sources of income.

## STREET MURDER

## CHARGES PERJURY TO SAVE M'GANNON

**"Somebody's Lying" is Charge Of Prosecutor**

**M'Gannon Confident of Being Set Free**

**Cleveland Case Nearing End**

(By Associated Press)

Cleveland, O., December 29.—Charges of "deliberate perjury" in the second degree murder trial of Judge William H. McGannon charged with killing Harold C. Kagy, were made by Assistant Prosecutor Green this morning during the first part of the state's final argument to the jury.

The case will go to the jury late this afternoon. Green talked to the jury for 30 minutes.

"There were three men present when Kagy was shot," he said, "the defendant has denied he was there. None of us expected him to say he was there, or that he fired the fatal shot. The defense attempted to show he was somewhere else at the time of the shooting. What is the truth? I am not to guess over words. Somebody is lying and it is not a matter of mistake in judgment—it is deliberate perjury."

Judge McGannon was confident when he entered court this morning. "The jury will vindicate me," he said.

## NEED FUNDS TO ENFORCE LAWS OF PROHIBITION

**Attorney General Says Present Funds Not Sufficient**

**Many Violations Are Cited**

(By Associated Press)

Washington, December 29.—Need of additional funds for prohibition enforcement with wholesale violations reported from various centers was emphasized by Attorney General Palmer in testimony before the House Appropriations Committee made public today.

His request for \$300,000 was not included by the committee in framing the sundry civil bill.

Mr. Palmer told the committee up to October, 1920, 17,666 arrests for violations had been made of which 17,428 cases were recommended for prosecution.

"Of that number about 10,000 arose during the last three months of that period," he said, "and I am advised by the Bureau of Internal Revenue that the ratio will increase."

Commodore Reynolds of the Coast Guard told the committee there was a big stock of liquor in the Bahamas Islands within 40 miles of the Florida coast which was smuggled over in boats and flying machines.

### NEW PROSECUTOR BEGINS HIS DUTIES FIRST OF WEEK

Ray R. Maddox Succeeds Harry M. Rankin, Four Years Fayette Prosecutor.

New Prosecutor's First Work Will Be With January Grand Jury.

Fayette County's new prosecutor, Ray R. Maddox, son and law partner of Tom S. Maddox, former prosecutor of Fayette county, will begin the duties of his office Monday morning of next week, when the January grand jury assembles for an investigation of a number of cases on the docket.

RAY R. MADDOX  
 The New Prosecutor

The new prosecutor succeeds Harry M. Rankin, who during his four years in office has left a remarkably good record of achievement with comparatively little expense in the way of assistance during his prosecution of cases.

Prosecutor Rankin has insisted upon taking many cases directly before the Probate Judge and there bring them to a speedy end instead of waiting for the usual proceedings in common pleas court which ordi-

narly require many weeks or months before definite action is obtained, thus reducing the cases in common pleas court and cutting expense to the county.

HARRY M. RANKIN  
 Outgoing Prosecutor

Like his predecessor, Prosecutor Maddox will occupy his present offices, which are located over the Bybee Millinery store, and not use the two small rooms formerly set aside for the prosecutor in the court house.

The new prosecutor is a capable young attorney who has been engaged in the practice of law for several years, and is one of the youngest prosecutors ever elected to office in Fayette county.

## Luxuries and Necessities

Millions—more than six of them—of dollars are asked by the school authorities of Ohio for the purpose of building new school buildings throughout the state during the year 1921.

The sum asked is one of those necessary sums which must be provided by the state. And that's true too. We must keep up our schools—buildings and teaching corps—and at the same time we must cut down the public expense else the tax problem which is nothing more nor less than finding a way and a means to get more money into the public treasury and at the same time reduce the amounts which property owners must pay.

We can't have larger public expenditures and lower taxes at the same time. People are now taxed to the limit. The cost of war is enormous and the bills must be paid. There is no way to escape that now.

We have almost reached the place when it seems we are mistaking luxuries for necessities. We can fall into that error very easily both in private and public living. We have been passing through times of easy money and in those times we made many luxuries into necessities and we must call a halt if we are to have less taxes to pay.

We have been liberal in our advocacy of public improvements and propose to continue that policy so long as it is possible without courting certain financial disaster.

In the future, however, before giving support to any public proposal we are going to make sure of its effect on the tax rate and by that means determine if it is a necessity or a luxury.

## Our Home Stores

We wonder sometimes whether, if having grown accustomed to them like so many of our other blessings and which we accept as a matter of course with no special thought of them, the people of this city and county really appreciate our wonderful stores and markets.

The people of this section of the state have buying facilities second to those of no place in the whole state. Not even in the large cities do the stores, shops and markets, surpass in quality and quantity offer for selection or in prices those of this city.

Our merchants in all lines are remarkably progressive. There is no city of Washington's size and, for that matter there are none much larger, outside of the great centers, which even rival Washington as a place to shop and to buy.

No matter what one may desire the opportunity to buy the very best at the very lowest price is better in Washington than elsewhere.

People know all that if they stop to give it a thought. Trips to other cities and towns always result in opening the eyes of those who fail to see the opportunities at home.

Really Washington stores are wonderful and the holiday season being behind us now we are at liberty to say some deserved nice things in praise of them and the merchants who operate them, without being suspected of boosting for holiday trade.

## Monk Eastman

Most people thought when "Monk" Eastman, noted East Side, New York, gunman, for a long time the terror of the police and with a price on his head, joined the army and by valiant service in action earned and received an honorable discharge and was granted a pardon for his crimes, that he had paid in full for his misdeeds.

It seems, however, that fate's decree was not in accord with those entered in man's courts and on Sunday the dead body of the former outlaw was found in a New York street.

Death resulted from a bullet fired into his body doubtless by some enemy made in the old days when "Monk" was king of the East Side. His spectacular career brought to his side hundreds of friends but it also made him as many enemies who waited for the opportunity to "do" him.

The East Side enemies were not so generous in extending to "Monk" a pardon for his past misdeeds as the governor and someone of them got him in the late hours of Sunday night.

## RANDOM NOTES

SOCIAL : PERSONAL MENTION : CLUBS

It would seem that clubwomen are not familiar with the history of the loan scholarship fund. For this reason a brief survey of the good accomplished through it may tend to arouse that interest to which the project is entitled. At the state convention at Oberlin in 1910, the chairman of the committee on education, Mrs. Alton H. Smith, Cleveland, presented a plan for the creation of a loan scholarship fund. The federation gave its assent and at the 1911 Cleveland convention the committee reported that a loan scholarship fund had been established and financial assistance was asked to place it on a working basis. The plan was to have each clubwoman contribute five cents per annum for eight years, thus creating, it was then figured, a sum of \$5,000. But at the end of the eight-year period the entire amount was not raised, due to the failure of many clubs to contribute. However, as the splendid work accomplished through this loan scholarship fund was so evident, and as the amount per capita was so small it was decided by the state federation executive board in 1919 to make this contribution a yearly assessment. At the silver anniversary convention in Cleveland an offering of \$1,072 was made to the fund.

It is interesting to know that since the fund was established eight girls have received and repaid their loans before October, 1919. One repaid this year. Five are repaying and two more will begin repaying this year. No interest is ever charged. The state federation has eleven girls in colleges this year, one of them being blind. All are preparing to make their own way through life. The blind girl has entered her college work with as much zeal and pleasure as one who can see.

One girl, to whom a loan had been made, died. Her loan, as all loans now, was protected by a life insurance policy.

Letters from girls receiving help from the federation's loan scholarship fund are full of gratitude to clubwomen for giving them assistance, and some of the girls are now offering to contribute to this fund to help other girls who need assistance. "Let me earnestly entreat you to pay your assessments each year," writes Mrs. J.

L. Selby, Greenville, state federation loan scholarship chairman. "Send your scholarship assessments with your dues to the state treasurer of the federation. The work is growing. More money is needed."

The scholarship assessment should be paid to Mrs. R. E. Mygatt, Cincinnati, state federation treasurer, before April, 1921.

Over a hundred pupils and parents were entertained with an honor recital of exceptional preparation at Miss Stinson's studio, Tuesday night. Margaret Gibson, Dorothy Donahoe, Dorothy Sparks, and Norman Price won the four cash first prizes given by Miss Stinson, the remaining performers each being presented with a box of chocolates.

Santa Claus had been expected for the evening, but owing to over work Christmas, he was ill and not able to be present, which he announced by telegram received during the evening, although sending remembrances and treats for all pupils.

After the presents had been distributed, Mary Ann Story, and Florence Mabel Sparks informally gave three or four of their clever song and picture numbers, which were a delight to all.

A month's vacation for all pupils was announced by Miss Stinson, who will spend this time in Florida.

The young women of the Guild of the First Baptist church turned their December meeting into a Christmas party with Miss Mabel Briggs hostess at her home on East Temple street, Monday evening. There were a number of guests.

After the regular devotional exercises and business session, there was a report of the East Central District meeting held in Cincinnati.

A dainty luncheon was served.

The girls of the "Polyanna" class of the Grace Methodist Sunday School spent a delightful afternoon, Tuesday in the church basement the teacher of the class, Mrs. Jess Feagans, assisted by Mrs. Herman Price, engineering the fun.

In an attendance contest, Miss Mamie Pensyl and Anna Lee Taylor were captains, the losing side of which the former captained, were hostesses for the meeting. Misses Mary Josephine Taylor and Marjorie Sparks were chosen captains for the next three months.

Miss Vinnie Ream Conner was elected president of the class; Miss Jean Worthington, vice-president; Miss Alice Shrock, secretary; Miss Genevieve Price assistant; and Miss Helen Rodecker, treasurer.

After games, the girls matched numbers for mysterious packages, which were given as favors.

Refreshments were served.

The Woman met the Publisher on the avenue the other day, and as he is aware of her fondness for choice tidbits he told her this:

"Shortly after our latest book, 'Who's Who in the Movies,' came out we received a letter from a man from Oklahoma, who wrote to say: 'Dear Sirs: I have just read your book. You must know or at least have dealings with the people you write about. I wonder if you would be so kind as to tell me what I could do to become a Moving Star.'"

The dinner hour was full of gaiety and double pleasure in the meeting of visiting girls and renewing friendships temporarily disturbed by the separation of college life.

The pretty young hostess was assisted by her mother, Mrs. B. F. Davis, sister, Miss Lillian, and Mrs. Clarence Ewing (nee Pauline Foster) of Waverly.

The additional guests were Mrs. Selator Fenner, Misses Gretchen and Doris Willis, Gladys Fenner, Edith Worthington, Opal Moore, Virginia Campbell and guest, Miss Madelyn Birney, of El Paso, Texas, Miss Dorothy Rogers, of Wilmington.

Mrs. Joe Alleman, of Bloomingburg, hospitably threw open her home for the Christmas party of the "Live Wire" class of the M. E. Sunday School.

Games and a jolly good time rounded out the evening.

Miss Hazel Williams, of Jeffersonville, gave a six o'clock dinner, Monday evening, honoring her guest, Miss Rebe Spahr of Xenia.

### ARE LIGHTNING RODS WORTH PURCHASING

Despite the many swindles that have been worked in the sale of lightning rods, this device can be made to be 100 percent efficient according to agricultural engineering specialists. Because of its great durability, copper is held to be the best material for use in lightning rods. Satisfactory protection, however may be secured from rods made of half-inch galvanized iron pipe.

The chief points to be observed in the installation of lightning rods, says Virgil Overholt of the College of Agriculture, are (1) Conductors should be installed in as straight runs as possible. Where bends are necessary use curves of at least one foot radius. (2) Rods are best secured to the building by single piece screw fasteners. Do not use insulator. (3) Aerials should be spaced along ridges at intervals of not more than 25 feet. They should extend 4 feet above ridges and 18 inches above chimneys. (4) It is absolutely essential that the electrical connection of the conductor extend into permanently moist soil. There should be no ungrounded ends. (5) Metal parts of a building such as hay racks should be cross connected to the rods.

Further information may be had from Farmers' Bulletin No. 824.

### GIVE FIRST NUMBER WEDNESDAY EVENING

Wednesday evening at the high school auditorium marks the first appearance in a lecture course here of the Leiter Light Opera Company. The entertainment is under the auspices of the Eagles Lodge.

The Leiter Company is a highly recommended musical organization. Miss Hazel, Huntley, contralto, is an artist of exceptional ability and for some years was soloist in the First Congregational Church, of Evanston, Ill. Miss Martha Cook, soprano, possesses a voice of remarkable purity and flexibility. Joseph Kendrick tenor has decided gifts in his artistry. The baritone, Clayton Quayle, is an artist of accomplishment. As an accompanist Harrison Burch is rarely equalled.

The old familiar opera scenes are staged in costume and such old favorites as "The Mikado," "La Boheme," "Robin Hood," "Il Trovatore" and many gems from famous operas are presented.

The Hungarian throne has been offered to Prince Axel. It looks like the nucleus of a revolution.

### HOWARD GIVES OUT HIS PLAN TO AID FARMERS

(By Associated Press)  
Chicago, December 28.—A platform of legislation designed to provide relief for agricultural credits was announced today by J. R. Howard, president of the American Farm Bureau Federation, upon his return from Washington where the proposal was placed before members of Congress.

Among proposed measures were: Regulatory powers over farms. Co-operative marketing associations should be in the hands of the United States Department of Agriculture rather than the Federal Trade Commission.

The farmers co-operative marketing movement must not be hindered by the provisions of the Sherman law.

The federal reserve act should be amended so as to provide preferential rates for loans for productive purposes over loans for speculative purposes.

The ware housing act should be extended so as to reserve the needs of both individuals and co-operative associations, carrying with it a rural credits plan to aid marketing of crops.

The federal land bank system should be extended to provide farmers personal credit.

### MUDDYING WATER DECLARES HEAD OF AMER. LEGION

(By Associated Press)  
Washington, December 28.—Testimony by Secretary Houston of the Treasury before the Senate Finance Committee yesterday, placing the cost of carrying out the pending adjusted compensation, or soldier bonus bill, at \$2,300,000,000 was characterized by F. W. Galbraith, national commander of the American Legion, in a statement tonight as a "scuttleship skirmish to muddy the waters so that the principle involved can be clouded in a lot of figures that mean nothing."

Mr. Galbraith estimated the maximum amount the bonus bill would cost the government \$1,878,800,000.

### KEEPER IS HORNED BY MOUNTAIN GOAT

(By Associated Press)  
Cincinnati, December 28.—Fred Smith, caretaker, today entered the enclosure at the Cincinnati zoo to feed the mountain goat.

The goat resented the intrusion and charged the intruder. Smith sought what he believed a safe position astride the animal, but the bucking of the goat was too much for the rider, who was unseated and horned in the back.

Smith is in the hospital with a wound which physicians fear may have reached his lungs.

### WARDEN EXPLAINS CHARGES FILED AGAINST OFFICERS

Local people were much interested some time ago in the announcement that two game wardens, William Downey and William Frances, had been bound over to the grand jury on charges of threatening James Johnson, of Chillicothe, with firearms.

Deputy Game Protector Frank Hard, who has followed the case closely states that in "Squire Hoss" court in Chillicothe, James Johnson has just been fined \$100 and costs for interfering with the duties of an officer and his son, John Johnson, has been fined \$25 and costs for hunting without a license.

The case against the two wardens is still in court, but Deputy Hard states that it will probably be thrown out.

According to statements of the two wardens to Hard, they had just placed John Johnson under arrest for hunting without a license and he had asked to go the house to get his coat when the father came to the door commanding his son to stay inside, threatened the officers if they persisted in taking his son to Chillicothe.

It is reported that Johnson attempted to close the door and that the officers were compelled to pull their guns to gain an entrance.

### CAS FROM STOVE OVERCOMES TWO

They were found by their son, Wilbur, who detected the fumes and arose to investigate the cause. He was nearly overcome before the room could be ventilated.

### \$10,000 LIQUOR SEIZED

Ironton, December 29.—Sixty-two cases of bonded whisky, valued at \$10,000, were confiscated by Lawrence County officials in a raid on a farm leased by Max Orlando south of this place.

### MAN AND DAUGHTER KILLED

Greenville, December 29.—Otto Culbertson, 33, Richmond, Ind., his wife and daughter, Helen, aged 6, were instantly killed at Harrisville, Ind., 15 miles west of here when their automobile was demolished by a Big Four express train at a crossing.

### XENIA MERCHANTS ORDERED TO CLEAR ALL SIDEWALKS

Xenia merchants must clear the sidewalks of all merchandise and low

awnings, according to a mandate issued by City Manager Riddle, following the decision of the State Supreme court which upheld the constitutionality of a sidewalk ordinance prohibiting obstruction either by display of goods or low awnings or in fact anything that would prevent free and unobstructed use of the side walks by pedestrians.

As results of the ordinance all sidewalk displays in Xenia will be relegated to the past.

### ADMITS CAUSING FIRE

Bellefontaine, December 29.—Olivier C. Bryant has entered a plea of guilty to a charge of setting fire to the Colton flour mill here and has been held to the grand jury. Bryant started the blaze, according to his statement, and then put it out by himself.

### FARM NOTES

Milk should be served to children at every meal. If a child does not care to drink raw milk, it should be prepared in some manner to tempt the appetite.

Whenever straw remains after the stables and the wheat field have received their quota it can be well utilized by spreading on sod ground to be plowed down for corn.

Unsatisfactory egg yields, low fertility, poor hatches, slow growth and development of the young stock, and many of the most troublesome poultry diseases are often due primarily to improperly located and poorly constructed poultry houses.

It is doubtful economy to build a silo within another structure, for it amounts to paying for the space twice. It would be more economical in the long run to use durable materials, paint, or treat it with some preservative, and provide a roof for protection.

### INDIAN STRIKERS STAGE BIG RIOT THROUGHOUT CITY

Bombay, (By Mail)—Three thousand strikers at one mill in the vicinity of Bombay, wrecked the office of the factory a few days ago and stoned a motor car containing police, severely injuring one inspector and two soldiers. Before the police succeeded in dispersing the strikers, they took to looting shops. A number of arrests were made and the mill district is being picketed.

Minor disorders took place elsewhere in the city, some stoning of street cars being indulged in at various places. The situation became serious enough for the Commissioner of Police to call the mounted police, who charged the crowd in semi-circular fashion. The casualties have not been reported, but the crowd broke up and fled. Wholesale arrests were soon after made, 60 men being taken in custody.

## TANLAC SALES REACH TREMENDOUS TOTAL

Sales for Present Year Show Increase of Almost One Hundred Per Cent Over Last Year.

20,000,000 BOTTLES ARE SOLD IN SIX YEARS

Celebrated Medicine Has Become Sensation of Drug Trade All Over America and Canada. Best People of Country Indorse It.

Although placed on sale something over five years ago, the demand for the celebrated medicine, Tanlac, has increased at most phenomenal rate and announcement has just been made by the manufacturers that the total sales will reach approximately 20,000,000 bottles by the end of the present year.

To say that Tanlac now has the largest sale of any medicine of its kind in the world does not begin to tell the story, for no other preparation has ever even approached the marvelous record that has been made by Tanlac, and it is now conservatively estimated that the sales by the end of the coming year will reach the astonishing total 20,000,000 bottles.

Tanlac sales last year amounted to 4,679,948 bottles, establishing a new world record for the sale of proprietary medicines up to that time. This record now pales into insignificance, however, as orders received during the first nine months of the present year reached a total of 6,200,000 bottles showing an increase of almost 100 per cent over the corresponding period of last year.

The enormous and ever-increasing popularity of Tanlac is the one great outstanding proof of its merits. The greatest drug firms of the country have voluntarily come forward and

stated in plain cold figures the record breaking sales everywhere. No medicine of less than superlative quality could possibly attain such a huge sales record nor gain as has Tanlac, the unqualified endorsement of thousands of well-known men and women from all parts of the country who stand for the best in their communities.

The greatest test of any medicine is the "repeat" sales it enjoys. Tanlac's phenomenal record has been possible because of the fact that the men and women who buy one bottle invariably return for the second and recommend it to others because it has helped them. Tanlac has been on the market now a little over five years. It has stood the acid test of time. It is known and honored in every city, town, village and hamlet on the American continent from Key West, Florida, to the northern wilds of Canada where even the Indians and fur traders have learned of its wonderful powers as a medicine.

Tanlac is composed of the most beneficial roots and herbs known to the scientific world. The formula conforms with all National and State Pure Food and Health laws of both the United States and Canada. Although Tanlac's claims for superiority are abundantly supported by leading authorities, it is the people themselves who have made Tanlac what it is.

Millions upon millions of the best people of the country have used it and have told millions of others what it has done for them. That is why Tanlac has become the real sensation of the drug trade all over America.

Tanlac is sold in Washington by C. S. Haver, in Lowell by Mason's Drug Store, in Jeffersonville by J. B. Davis, in Octa by J. W. Murphy and in Mill-edgeville, E. L. Ford Sons, Lee Ortmann Selden.—Adv.
